

Day **Wednesday 31st July**

Room	Auditorium	Liffey Hall 1	Liffey Hall 2	Liffey Meeting Room 2	Liffey Meeting Room 3	Wicklow Hall 1	Wicklow Hall 2A	Wicklow Hall 2B	Eco Cem	Wicklow Meeting Room 1	Wicklow Meeting Room 2
Registration All Day (Opens 07:30)											
09:00 - 10:45	Humans and Biosphere Lake systems in the Anthropocene	Humans and Biosphere Upscaling palaeoecological, archaeological and historical records of land-use and land-cover change	Terrestrial Processes, Deposits and History Proglacial lakes in the Quaternary	Humans and Biosphere Pleistocene hunter gatherers in extreme environments	Palaeoclimate Into the Ice Age: Exploring the distribution and volume of ice sheets during past glaciations	Stratigraphy and Chronology The Quaternary of Europe: Stratigraphical perspectives and tools for correlations	Terrestrial Processes, Deposits and History Glacial and periglacial landsystems – recent advances and their implications for engineering geology	Palaeoclimate Bridging the gap between proxies/reconstructions and simulations in the late Holocene period	Coastal and Marine Processes Geological and geophysical archives of ice sheets on continental shelves	Palaeoclimate Climatic and human impacts of volcanism during the Quaternary	Palaeoclimate Stable isotopes in palaeoenvironmental reconstructions: understanding climate change and nutrient cycling
10:45 - 11:30	Refreshment Break (45 min)										
11:30 - 13:15	Humans and Biosphere Lake systems in the Anthropocene	Humans and Biosphere Upscaling palaeoecological, archaeological and historical records of land-use and land-cover change	Terrestrial Processes, Deposits and History Proglacial lakes in the Quaternary	Humans and Biosphere Pleistocene hunter gatherers in extreme environments	Palaeoclimate Late Quaternary environmental change in the South Pacific: climate, ecosystem dynamics and human colonisation	Stratigraphy and Chronology The Quaternary of Europe: Stratigraphical perspectives and tools for correlations	Terrestrial Processes, Deposits and History Glacial and periglacial landsystems – recent advances and their implications for engineering geology	Palaeoclimate Building a better understanding of past climates, ecosystems, and societies through Open Big Data	Coastal and Marine Processes Geological and geophysical archives of ice sheets on continental shelves	Palaeoclimate Vegetation responses and human adaptations to environmental changes in the Holocene of West Africa	
13:15 - 14:30	Lunch Break (1hr) including lunchtime talk (14:00 - 14:30)										
14:30 - 15:15	Plenary Session - Kathy Willis										
15:15 - 16:15	Closing and General Assembly
